

Utilitzaci3 dâ??una tonalitat de colors corporativa

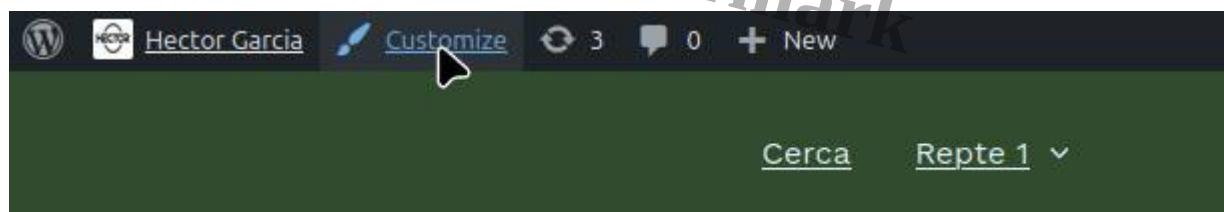

Description

Acceso al Personalizador: En la barra superior de administraci3n de WordPress, se selecciona la opci3n Customize para acceder al editor del tema Astra.

Navegaci3n al Men3 Global: Dentro del panel lateral, se selecciona la secci3n Global y posteriormente el submen3 Colors.

Configuraci3n de la Paleta Global: En el apartado Global Palette, se activa el perfil Dark. Se asigna el verde ne3n a los campos Accent y Links, fijando el fondo del sitio en tono negro.

Publicaci3n y Verificaci3n de Coherencia: Se guardan los cambios haciendo clic en Published y se verifica la coherencia est3tica en la p3gina principal: los encabezados y tarjetas mantienen un enmarcado uniforme en verde oscuro, los botones destacan en verde ne3n y el fondo negro unifica la identidad visual del proyecto.

A screenshot of the Astra theme customizer interface. At the top, there's a header bar with a close button (X), an edit icon (pencil), and a 'Published' status indicator. Below the header, the text 'You are customizing' is followed by the theme name 'Hector Garcia'. The main section is titled 'Active theme' with 'Astra' listed below it. To the right of 'Astra' is a 'Change' button. Below this, there's a link 'More Options Available in Toolkit' with a right arrow. A list of customization options follows: 'Global', 'Header', 'Post Types', 'General', 'Footer', 'Site Identity', 'Menus', 'Widgets', 'Homepage Settings', and 'Additional CSS'. Each option has a right arrow. A large, diagonal watermark text 'default water' is overlaid across the middle of the list. A mouse cursor is pointing at the 'Global' option.
